HOBBIES

Personal Interests:
- Enthusiastic about exploring diverse cuisines and creating delightful dishes in the kitchen.
- Enjoying a wide range of musical genres, fostering a passion for rhythm and melody.
- Regularly engaging with insightful discussions and staying informed through various podcast genres.

LANGUAGES

As a devoted Web Developer with over 2 years of expertise in web development and a solid background of 7.1 years in Qlik Sense, I bring a wealth of skills and knowledge to ensure the success of your projects. I enjoy every facet of the design process, embracing collaboration and discussion. Additionally, I've contributed to Qlik Sense education by creating and publishing four courses on the platform through Udemy & YouTube.

EMPLOYMENT HISTORY

Senior Qlik Sense Developer & RND | Oct 2022 - Present
Predoole Analytics, Mumbai

Senior Qlik Sense Developer, Focused on Qlik Products & RND, NPrinting & Backend-Frontend.
Please visit for my Accomplishments.

Qlik Sense Developer | Oct 2020 - Oct 2022
Medly Pharmacy, Pune

I specialize in creating comprehensive dashboards and mashups that seamlessly integrate various functionalities and deliver insightful data representations.
Please visit for my Accomplishments.

Demographics Info Dashboard & Mashup
- Utilized Python integration to fetch live data.
- Employed JavaScript to Python connectivity for Qlik Sense.
- Implemented on-the-fly chart generation, displaying live data for each parameter without loading the entire dataset.

General Compliance Audit 1 & 2, featuring reports such as Coupon Opportunities, Underpaid Medication Claims, Repeatedly Prescribed Medications, and 50 Mile Covered Zip Codes.
URAC Dashboard & NPrinting Reports
- Created dashboards showcasing the number of specialty patients and prescriptions dispensed, URAC Net Promoter Scores (NPS), call abandonment rates, call centre performance, and QRE details.
- Triggered reports via NPrinting for business users.

DNA Apps Dashboard
- Developed Provider DNA, Patient DNA, and Retail DNA dashboards, presenting metrics such as the number of providers, patients, and retail targets.

Delighted App (NPS Score) Dashboard & NPrinting
- Designed a dashboard displaying the number of patient ratings, positive and negative comments, and categorising patients into detractors, passives, and promoters.
- Implemented NPrinting for email triggers to business leaders.

NPrinting Reports for Various Apps
Created reports for apps such as Daily Compliance Report Task, Daily Revenue Update Task, Delighted (NPS), Delivery/PX/RX Scorecards, Sales Daily Revenue, Rx Reschedule, and URAC Fallouts.
Compliance App & Fallouts Dashboard
Developed a comprehensive dashboard displaying compliance metrics and fallout data.
QRE Dashboard
Showcased patient prescription queries, resolution steps, final resolutions, and

involved stakeholders.

QMC Familiarity
Proficient in Qlik Management Console (QMC) tasks, including app publishing/ unpublishing, basic security rules, user management, virtual proxy setup, and rule enforcement at the app and stream levels.

Qlik Theme Development
Created multiple themes for various dashboards, each featuring distinct colour schemes.

In summary, my experience spans the integration of data, dynamic charting using mashups, compliance reporting, NPS scoring and comprehensive QMC operations, showcasing my proficiency in developing impactful and insightful data-driven solutions.

Qlik Sense Developer | Nov 2016 - Sep 2020
Clay Logix, Mumbai

I've developed a range of versatile plugins to enhance the functionality and user experience in Qlik Sense.
Please visit for my Accomplishments.

Here's a snapshot of some key plugins:
1. *Variable Button,* Allows simultaneous value assignment or change to multiple variables through a toggle switch.
2. *Popup Chart*, Dynamically generates buttons that load different master charts based on the provided configuration.
3. *Trigger,* Functions as a Qlik View trigger, enabling actions on object click.
4. *Side Filter*, Features a side filter pane accommodating 10 master objects (Filter pane only), with all filters initially hidden until the open button is clicked.
5. *Various KPI Objects*, Offers different types of Key Performance Indicator (KPI) objects with a responsive user interface, supporting measures from 1 to 3.
6. *Export Button*, Facilitates data export from chart data to Excel using Object ID.
7. *Qlik Sense Styler*, Serves as a styling plugin for Qlik Sense, enhancing the appearance of all objects except TEXTBOX and KPI.
8. *Custom Filter Pane*, Provides advanced features, including default selection options and two style types (List & Button).

Visit my GitHub for more extensions developed & available for the public.
And many more plugins designed to optimize and extend the capabilities of Qlik Sense.

EDUCATION
